

2021-2022 ECONOMICS SEMINAR SERIES

EDWARD BARBIER

UNIVERSITY DISTINGUISHED PROFESSOR OF ECONOMICS

Thurs. 3/10

4-5 PM

Clark A 205

In his newest book, *Economics for a Fragile Planet*, Dr. Edward Barbier argues managing an increasingly “fragile” planet requires new thinking on markets, institutions, and governance built on five principles: ending the underpricing of nature, fostering collective action, accepting absolute limits, attaining sustainability, and promoting inclusivity.

Economics for a Fragile Planet (Cambridge 2022) is available for pre-order at [Cambridge.org/Barbier22](https://www.cambridge.org/Barbier22). Use code **EFP22** for 20% off.
